## About Us

### OCTIRAN AT A GLANCE

FAIR SERVICES COMPANY AND EXHIBITION SYSTEM PRODUCER  
OFFICE FURNITURE DESIGN AND PRODUCTION  
OCTIRANPLUS AS A DISTRIBUTION CHANNEL  
KHOOPER.COM AS A BUSINESS NETWORK FOR INTERIOR DESIGN

#### When and how we started and where we stand now:

##### Starting on 1988 as a fair services company and exhibition system producer

Starting more than 26 years ago as the first fair services company in Iran, very soon we obtained production license from OCTANORM-Vertriebs-GmbH and were vigorously involved in production of Octanorm exhibition and shop fitting systems under OCTANORM guidance and supervision.

##### Adding office furniture design and production in 1990

Later we focused on the vast, less noticed and not improved office furniture market which despite its great potential especially in after war years was bare of any systematic business approach. We started a vigorous plan for recognizing market demands and dilemmas and providing proper solution based on creativity, new concepts and standard modern products. Our serious extensive effort and great demand in the market resulted in a rapid, successful growth which made us one of the leading manufacturers of office furniture in Iran and a solution provider for big projects on the subject.

##### Launching OCTIRANPLUS as a distribution channel in 2010

In our long and extensive experience as office furniture producer we recognized some fundamental problems in distribution channels and systems of office furniture in our country and by establishing OCTIRANPLUS which focuses on distribution of Iran's best office furniture brands, we started a new different but related venture in office furniture market.

##### Launching KHOOPER.COM as a business network for interior design in 2013

Rapid and vast usage of network and information technology by young and educated population in Iran from one side and absence of efficient online business networks especially in the field of interior design urged us to invest on a web portal for providing better access to the wide range of products and services available in the country for both end users and professionals. Portals backbone and our core competency is our wide distribution channel which was formed by OCTIRANPLUS and is now developed to match with new purpose.

#### OCTIRAN products:

##### Modular systems:

Octiran Modular Exhibition System  
Octiran Modular Office Furniture System  
Octiran Modular Partition System

**FOXY** 

OCTIRAN , New Generation of Office Furniture

OCTIRAN , New Generation  
of Office Furniture

When we are talking about the new generation, at first glance, the creative people from the third generations who are working in OCTIRAN, come to the mind. When OCTIRAN began to work, they were not born yet. But today a new generation of office products named Foxy been released, Foxy is designed and manufactured by the efforts of the younger generation of engineers and other OCTIRAN staff. We hope the success of these efforts.
